

International Online Sustainability Week – applications still open SuSe 2025

September 22–26, 2025 | Online | Language: English

The International Online Sustainability Week (IOSW) is a one-week, fully online course that brings together students from the University of Hamburg, TUHH, and international partner universities. Participants will engage in structured discussions, explore global sustainability challenges, and collaborate in interactive formats including keynote lectures, the [Climate Action Simulation](#), and the group-based format [The Week](#).

Key facts:

- Full-day sessions from **September 22 to 26, 2025**
- Active participation with **camera required**
- **Course language:** English

Academic Context

The IOSW is a full university course offered as part of the elective module *Current Issues in Business Administration C (MA-FWB 3(F))* within the **M.Sc. Business Administration** program at the University of Hamburg Business School.

Due to its interdisciplinary approach, the course is also open to **interested master's students from other faculties**.

Course Leads

- **Prof. Dr. Simone Neumann**, University of Hamburg
Institute for Sustainable Logistics and Mobility
- **Prof. Dr. Christian Thies**, Technische Universität Hamburg
Institute for Resilient and Sustainable Operations and Supply Chain Management

Application deadline: August 31, 2025

- **UHH students:** via [STiNE](#)
- **TUHH and international students:** see website below
