

JOINING FORCES

13th – 16th October 2020 - The best of both worlds

Seefischmarkt, Kiel

Online via zoom conferences

This year, YOUNMARES (conference for YOUNg MARine RESearchers) is taking place from 13th to 16th of October in Kiel at GEOMAR-Westshore. Due to COVID-19, the conference will also be streamed online to include participation from those who cannot travel to Kiel.

YOUNMARES 11 is welcoming Bachelors, Masters and PhD students and early post-doctoral researchers committed to investigating the oceans and willing to **share their projects and exchange ideas**. At YOUNMARES 11 we hope to **create a dynamic young scientist meta-network across different disciplines** in an easy to talk to setting.

With this year's theme **JOINING FORCES**, we aim to bridge the gap between marine science, technology and the society. We will cover a wide range of topics in addition to traditional marine science by bringing together fields such as technology, policy, business, social sciences and ocean sustainability.

In light of the upcoming Decade of Ocean Science for Sustainable Development (2021-2030), YOUNMARES 11 will create an opportunity for interdisciplinary exchange of ideas and knowledge. We believe it is time to bridge gaps between different sectors to develop solutions for a sustainable ocean.

We bring you the **"Science meets Economy"**, an event designed to offer opportunities for young researchers, companies and research institutions to network and exchange ideas. We are therefore looking forward to a cheerful and inspiring conference.

CALL FOR ABSTRACTS

Are you interested to present your research ONLINE or PHYSICALLY in Kiel during YOUNMARES 11.

Send us your CV and an abstract of your research by 31.07.2020 to abstract@youmares.org

All sessions and guidelines for abstract submission and presentations can be found at
