**Academic Leadership Programme**

**Career Strategies for Women**

Although many young women study natural sciences, the number of female medical doctors and natural scientists declines dramatically from the postdoc-level upwards.

In order to promote the career paths of women in academia and to prepare them for leadership roles, the equal opportunity teams of the participating partners joined to design this interdisciplinary training and networking programme.

The participating partners

- Cluster of Excellence “CUI: Advanced Imaging of Matter”
- Cluster of Excellence “Quantum Universe” (QU)
- University Medical Center Hamburg-Eppendorf (UKE)
- Faculty of Mathematics, Informatics and Natural Sciences of Universität Hamburg (MIN)

aim to increase the number of female scientist in leading positions in the field of STEMM (science, technology, engineering, math & medicine) and encourage training and networking across the different research fields.

**Leadership Skills & Career Competence**

**Networking Events**

In cooperation with  
[Logo]

We would like to give you the opportunity to get to know your peer group in Hamburg. Therefore, we usually organize networking events for young female scientists who are participating in different workshop-, mentoring- or coaching-programmes. Due to the current situation, we are still working on ways to bring you together. We will keep you updated and inform you about any news, as soon as we can.
