### **“Jewish Cemeteries in Hamburg in the Research Platform for Jewish Gravestone Epigraphy EPIDAT”**

Thursday, 17 June 2021, 06:00 pm CEST

Zoom-Meeting

The Ashkenazic cemetery in Königstraße in Hamburg-Altona was the first site to be included in the epigraphic database. Meanwhile, the research platform EPIDAT provides access to more than 230 Jewish cemeteries with about 42,000 sepulchral inscriptions from nine centuries and six European countries. The lecture will present some aspects of Jewish funerary epigraphy and current research perspectives.
