Invitation to the Quantum Alliance online Community Event on 17. November 2022 9:00 – 11:00 am

Dear PhDs and Postdocs of the Quantum Alliance and beyond,

The Quantum Alliance is holding a Community Networking Event online on Thursday, 17. November 2022 from 9:00 to 11:00.

You will have the opportunity to (re-)connect with young scientists from all over Germany and get insights into the job market for PhDs and Postdocs in Germany. In 10-minute talks, alumni of our member institutions will give an overview of the challenges and advantages of leaving the university to work in industry or a government lab and the do's and don'ts during the application process. Following this there will be a general panel discussion followed by networking sessions.

Please register at this link for this free online event by Friday, 11. November 2021: https://www.quantum-alliance.de/news-and-events/community-event-2022.html
